

21 NOV 1967

MEMORANDUM FOR: Deputy Director for Support

SUBJECT : Improvement--Corner of Glebe Road and  
Route 123

REFERENCES : (a) Memo dtd 6 Nov 67 to D/L fm DD/S,  
same subject

(b) Undated M/R by C/RE&CD/OL,  
Subject: Meeting with the Commis-  
sioner, Virginia Department of  
Highways

1. This memorandum is for your information only.
2. Your memorandum, reference (a), and its accompanying papers have been reviewed and I concur in your observation that we would be stretching a point to attempt to apply the statute pertaining to defense access roads (23 USCA 210). Confirming this the Associate General Counsel, Office of Logistics, is of the opinion that the legislation is neither broad enough nor specific enough to include this Agency.
3. With the foregoing in mind, the resolution of this question is perforce in the hands of the Virginia Commonwealth authorities. Paragraph 5 of reference (b) reveals the usual plea by a state for Federal Funds. It is believed, however, the approach should now be that it is in the best interest of the County and the Commonwealth to expend the funds for the improvements under consideration.

  
George E. Meloon  
Director of Logistics
